Rich,

This email serves to provide results of U.S. EPA performance evaluation (PE) samples received on July 20, 2017 and submitted to the respective laboratory with samples collected on July 27, 2017 coinciding with the soil sampling activities at the Leviathan Mine Site in Alpine County, California in accordance with procedures described in the Leviathan Mine Site RI/FS Quality Assurance Project Plan, Revision 2 (Atlantic Richfield, 2017). The final laboratory results received on August 17, 2017, along with the field sample control log documenting the blind field identification assigned to the PE samples, are attached to this email.

Please let me know if we can be of further assistance.

Thanks,

Lynda Lombardi
